

Hoist Rebate Program

Save on new Sky Climber hoists by trading in old, used hoists.

Get \$500 back on new hoists with trade-in

Did you know that Sky Climber offers a \$500 rebate off the cost of a new Compact or LNX when you trade in a used hoist?

Our Hoist Rebate Program helps customers upgrade to the newest, most reliable personnel hoists in the industry with a simple trade-in plan. For every used hoist you turn in, Sky Climber will apply a \$500 credit toward the cost of a new Compact-series or LNX-series hoist.

To participate:

1. Contact your regional Sky Climber LLC sales representative or email us at info@skyclimber.com to obtain a Return Authorization (RA) number.
2. Send the used hoist to our factory along with the RA number
3. Place an order for a Compact-series or LNX-series hoist and Sky Climber LLC will apply a \$500 credit for one hoist to your order once the used hoist has been received.

Contact your regional Sky Climber LLC sales representative or email us at info@skyclimber.com to get started!

Details on this offer: Only one trade-in credit may be used toward any single hoist purchase. Sky Climber will accept personnel hoists from any manufacturer for this program. Hoists do not have to be operational. Trade-in units must have a Return Authorization number and be received by Sky Climber LLC before any credits will be issued. Contact your Sky Climber representative or info@skyclimber.com for additional details.
