product and service solutions

SKY CLIMBER
Access Solutions LLC

Roof and Wall Anchorages

The simple and widely-accepted anchor solution for code compliant window cleaner safety in the US and Canada. All products manufactured locally in the USA and backed with professional engineering data and support by our staff. Our standard product inventory covers most applications, but our wholly-owned plant allows us to fabricate anchors to custom specifications.

Sky Climber Access Solutions is a complete solution provider of Permanently Installed suspended access equipment and services.

Trust our dedicated teams of professionals to engineer and install the right access products for your new construction or restoration project. We specialize in the design, installation, and testing of anchors, davits, horizontal lifeline systems, and other work-at-height equipment.

Horizontal Lifeline Systems

Hands-free and double-lanyard style life line systems are safe and reliable. Sky Climber Access Solutions carries a full line of anchors, lifelines, OSHA-compliant fall protection hardware and safety equipment for working at height.

Davit Sockets and Arms

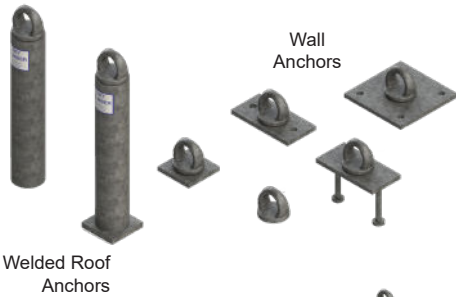

Whether for new installations, replacement units or augmentations, our full line of davit arms, versatile bases and attachments allow for flexible use of powered stages for full façade access. Ground and roof-launch davit styles are available. Choose from fixed, mobile, flush-mount or recessed-mount bases to fit your individual project needs.

Roof and Wall Anchors

- For rope descent, safety lines, and temporary scaffold tie backs
- Forged eyes in stainless or high strength steel
- For bolted, welded and cast-in-concrete applications
- All anchors greater than 5000 lb. strength
- Manufactured in the USA

Davit Arms

- 2-line and 4-line system capability
- Full line of fixed, mobile, and flush-mount sockets
- Ground and roof launch standard models
- Top rotating arms
- Custom match program for retrofit of existing installations
- Manufactured in the USA

Horizontal Life Line systems

- Hands-free and double-lanyard style life line systems are safe and reliable
- Anchors, lifelines, and hardware available
- Horizontal lifeline kits provide automatic pass-through fall protection for multiple workers

Rigging Sleeves

- For ground-launched access below obstacles
- Versions available for 2-line & 4-line systems
- Manufactured in the USA

Monorail Systems

- For use with rope descent or powered platform access
- Inside/outside bends, switches and turntables adapt to unique architecture
- Side or top mounted attachment to structure
- Powered and manual trolleys
- Fully customized design services

Powered Platforms, BMUs

- New construction and retrofits
- Customized roof crane solutions
- Modular and fixed length platform solutions up to 40' in length
- Worldwide service and support
- Full US-based design and project support team

Sky Climber Access Solutions offers services for both permanent and temporary installation of suspended access equipment for new construction and retrofit projects. Permanent Installation services include:

- Full Turn Key Project Solutions
- Consulting, Layout, and Design
- PE Stamped Drawings for Final Submittal Package
- Supply, Installation, and Project Management
- Load Testing and PE Stamped Certification reports
- Custom products for ANY project/building
