

SKYLOTEC CLAW VERTICAL FALL ARRESTER

The NEW SKYLOTEC CLAW Vertical Fall Arrest Sleeve is designed to fit a wide variety of solid core wire ropes (cables) and travel smoothly along the vertical system while providing fall arrest when needed. Features include:

- German engineered to fit 3/8 inch (9.5 mm) and 5/16 inch (8 mm) solid core wire rope*.
- High quality lightweight stainless-steel construction.
- Smooth travel up and down the vertical system.
- Redundant safety features that reduces the risk of improper installation.
- Meets ANSI A14.3-08, CSA Z259.2.5-17 and OSHA requirements.
- Replaceable shock absorbing pack.
- Independently tested on the DBI Lad-Saf vertical climbing system to the above standards.

CLAW Vertical Fall Arrest Sleeve
