

Customer Location Safety/Application & Operator Training

Learn the proper methods to safely use suspended access equipment. This comprehensive 1-day course mixes regulatory requirements with hands-on instruction and includes presentations and demonstrations. The presentation is generic in nature which allows attendees to apply learned skills to other brands of suspended access equipment.

The course materials are retained by the attendee, are presented in a 3-ring binder, and include the following information:

- Proper set-up and use of "Sky Climber" topside rigging equipment, platforms, work cages and bosun chairs.
- Wire rope specifications and their preparation for use.
- Personal fall arrest equipment requirements.
- OSHA, ANSI, and UL regulations.

Attendees who successfully complete the course are issued Operator Identification Cards that are valid for 3 years. At the end of this period holders will be required to complete another course for renewal.

Application/Safety & Operator Training for up to 30 attendees will normally take a single day.
