

Description

- Sky Lock II overspeed safety device delivers reliable overspeed protection for Sky Climber Alpha 2200 Hoists. Engineered for high-duty suspended access use, it locks automatically on the wire rope whenever descent speed exceeds safety thresholds—providing a critical layer of fall protection and operator confidence.
- The Sky Lock II features a durable, serviceable design that withstands harsh work environments and integrates easily with Alpha Hoist systems. Available in both standard and heavy-duty configurations, it is built to perform in the toughest conditions while keeping maintenance simple.

Information

- Automatic overspeed braking for Alpha 2200 Hoists.
- Compatible with 10.2 mm heavy-duty rope.
- Instant mechanical engagement during overspeed for added fall protection.
- Built to meet osha and ul safety standards for suspended access equipment.
- Rugged, field-serviceable construction for long-term performance.

Applications

- Alpha 2200 powered platform systems.
- Construction and façade maintenance.
- Industrial plant and infrastructure access.
