

Description

- Sky Lock III Overspeed Safety Device provides automatic secondary fall protection for Sky Climber Compact hoists. Engineered for dependable performance, it monitors rope travel and locks the system if descent speed exceeds a safe threshold—helping protect crews and equipment on every lift.

Information

- Designed for Compact electric hoists (all capacities) using 5/16" (8 mm) wire rope.
- Automatic mechanical engagement on overspeed for added protection during descent.
- Rugged, serviceable construction for demanding jobsite conditions.
- Simple inspection and maintenance to help minimize downtime.
- Compact profile integrates cleanly with existing hoist setups.
